

# Battery Air 250C

The Aqua One portable Battery Air 250C is a high performance single outlet air pump, which is the perfect solution for use when transporting live fish.

The Battery Air 250C runs on 2 x D batteries (sold separately) or the supplied 12V car cigarette lighter power supply. When the 12V cable is connected, power will be drawn from the power supply so as to conserve battery power.

**Suitable for: Coldwater, Tropical and Marine**

### Features & Benefits:

- High performance single outlet air pump.
- Complete with air stone and airline.
- Improves dissolved oxygen in your tank, bucket or fish bag.
- Ideal for use when transporting live fish, bait or during a power failure.
- Convenience of battery operation.
- Includes 12V car cigarette lighter as an alternative power source.

## Notes, Hints & Tips:

### Troubleshooting

#### Q1. The motor is working, but there is no air coming out of the pump

1. Check that the airline is not kinked
2. Check the air stone and replace if needed
3. There is a rubber diaphragm inside the pump which may have worn out and may require replacing
4. The flapper valve in the pump may have become dirty or brittle and require replacing

#### Q2. The pump is very noisy

1. Check that the air line is not kinked
2. Check the air stone and replace if needed
3. There is a rubber diaphragm inside the pump which may have worn out and may require replacing
4. There may be too much back pressure on the pump (It is too small for your application)

### Warning and Disclaimers:

Read and follow all instructions, even if you feel you are familiar with the product, and find a place to keep the instructions handy for future reference. Your attention is drawn particularly to the sections concerning "IMPORTANT SAFEGUARDS" and the "GUARANTEE CONDITIONS". Please ensure you retain your original purchase receipt in the event that guarantee service is required.
